Our Mission

To deliver the highest quality and most cost effective of specialist electrical and fire protection services available.

“Do something simple, really well, or do something clever.” The mantra of the modern-day business could have easily been written to describe the EA-RS Group of Companies.

Since its formation in 1996 the EA-RS Group has provided support for the UK's leading construction companies, while developing technologies and services that are, quite simply, unique.

Why have different fire specialists companies working on your project?

EA-RS delivers all mechanical and electrical fire systems services in one solution.

Are EA-RS too big to care?

Our senior team are available 24/7 to ensure your peace of mind throughout the delivery process and beyond.

Can I talk to a decision maker at EA-RS?

Our Management are focused problem solvers who are empowered to make decisions without layers and layers of big company politics.

Do EA-RS install their systems without subcontracting?

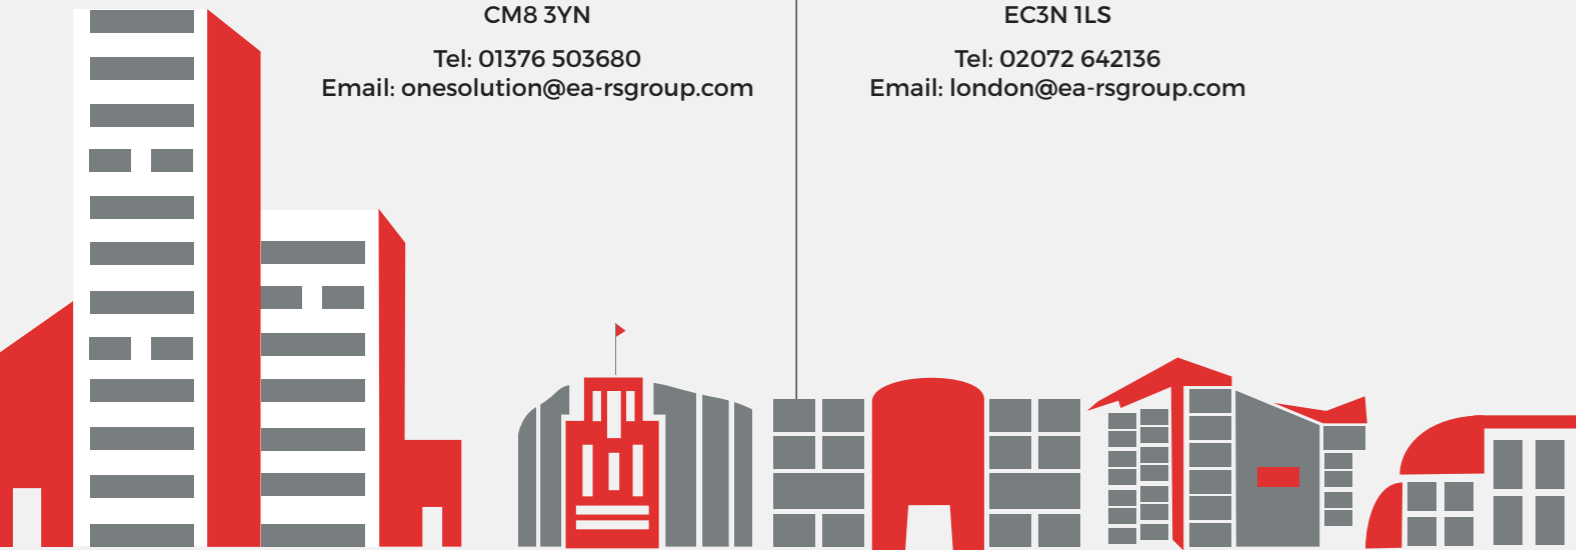

The EA in EA-RS has been installing systems for 20 years and our contracting and project management background and processes ensure projects flow without subcontractor hold ups and financial arguments.

Can I use EA-RS for all my fire engineering and Design advice for free?

Our designers and Sales engineers are on hand for not only British Standards advice but on installation and interfacing advice also.

How reactive and responsive are EA-RS?

We pride ourselves with a rapid response to any enquiry and deliver designs, quotations and tenders on time every time. If we are delivering projects, we respond to every issue early. Provide a solution and move on...

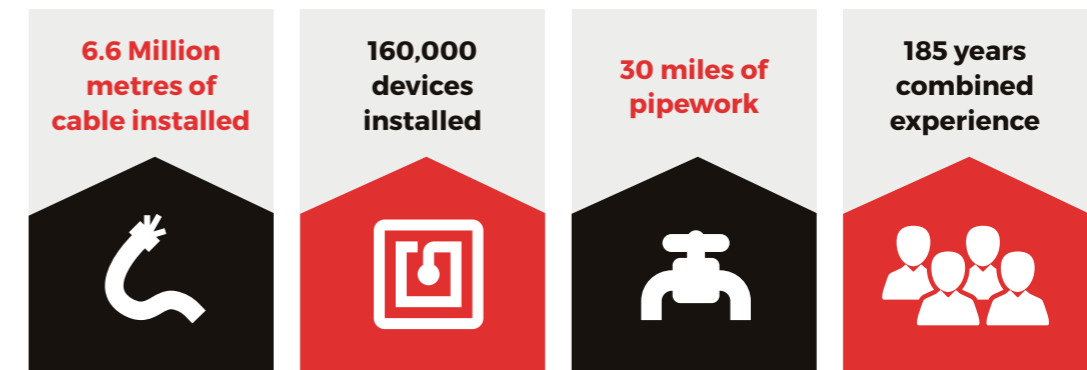

Case Studies

Project	Value	Installation Type	Client
BBC Television Centre	Plot A £900k	Integrated Fire Detection, Public Address Voice Alarm, Fire Telephone Disabled Refuge, Disabled Toilet, Smoke Management system/s.	
Central St Giles	Tottenham Court road £3 Million (shell & core & fit-outs)	Integrated Fire Detection and Alarm, Fixed, FT/DR, Smoke Management & Pre-Action system/s.	
Hackney Council	£40k	Fire alarm, Extinguisher, Gas Suppression and Service and Maintenance	
Paddington Central	Building 1 £2.2 million (shell & core & fit-outs)	Integrated Fire Detection, Flame Detection & Alarm system/s and Fixed Gaseous Suppression systems provided to Manufacturing facility	
Chiswick park Commercial	Building 6 £720,000.00	Integrated Fire Detection, Public Address Voice Alarm, Fire Telephone Disabled Refuge, Disabled Toilet, Smoke Management & Pre-Action system/s.	
Bodleian Library	Oxford Archive £1.5 Million	Bespoke Watermist System including full design and Testing protocol	
Lacon House	Holborn £230,000.00	Integrated Fire Detection and Alarm, Fixed, FT/DR, Smoke Management system/s.	
Finsbury Square Commercial	No 8 Shell and Core Fit out £800,000.00	Fire Detection System, Public Address Voice Alarm, Fire Telephone & Disabled Refuge, Disabled Toilet Systems & Pre-Action system/s.	
Telehouse Data Centre	TN2 Data Centre £1.8 million	Integrated Fire Detection, Public Address Voice Alarm, Fire Telephone Disabled Refuge, Disabled Toilet, Smoke Management system/s. Sprinkler System, watermist, Gaseous Suppression systems and Vesda System.	
UBS Broadgate	UBS Bishopsgate Fit Out £1.5 million	Integrated Fire Detection, Public Address Voice Alarm, Vesda

EA-RS at a glance

Experience and Certifications

The EA-RS Group as a brand is firmly established in the marketplace and indeed enables EA-RS to utilise its experience for the provision of turnkey engineering solutions to clients changing needs. In terms of design experience and associated project responsibility taken we would like to confirm the following: -

Company Overview

We have the capability to deliver all of the below;

- Fire Detection System (open-protocol) e.g. Kentec, Advanced, Apollo, Hochiki
- Fire Detection System (managed-protocol) e.g. Edwards EST
- Aspirating Smoke Sampling Detection Systems
- Public Address & Voice Alarm Systems e.g. Baldwin Boxall, EST
- Fire Telephone & Disabled Refuge Systems
- Disabled Toilet
- Gaseous Suppression Systems (Chemical and Inert solutions)
- Gas Detection
- Water Mist Systems
- Sprinkler Systems

The EA-RS Group expertise lies in the design, supply, installation, commissioning and continued life-time maintenance of Fire Detection & Protection systems. Our focus is based upon delivery of the project, of the system and of the satisfaction to the client's needs.

As is the nature of the safety of life and property, we have an extensive support service which enables the confidence in the ongoing operation of the systems for the entire life term of the system. In addition, the newly installed systems are developed to ensure they meet the needs of the user in practice. It is important to EA-RS Group that the user is confident in the system operation and capabilities, this enables the benefit of the system to be realised.

Our turnkey capabilities can be demonstrated and provide comfort by means of our independent accreditation, as even with the best equipment, fire systems are only effective if correctly designed, installed, commissioned and serviced. It is therefore important that specifiers select only competent Firms with a proven track record to undertake the work.

Accreditations

LPS1204 Scheme Overview

LPS1204 Gaseous Suppression Systems

The purpose of LPS 1204 scheme, Requirements for Firms engaged in the design, installation, commissioning and servicing of gas extinguishing systems, is to provide an assurance that gas extinguishing systems perform correctly. It is recommended that the LPS 1204 Certificated Firm is given responsibility for the complete system, including the following aspects:

Selection of appropriate gas type

Extinguishing design concentration

Check on enclosure leakage integrity

Electrical system integration

Discharge and post discharge venting

LPS1014 Scheme Overview

LPS1014 Detection & Alarm Systems

LPS 1014 Requirements for Certificated Fire Detection and Alarm System Firms meets these requirements in full. LPS 1014 requires one encompassing Certificate of Conformity for the project, i.e. single point responsibility, which benefits all parties concerned, i.e. the insurer, the fire brigade, the building owner, etc.

LPS1048 Scheme Overview

LPS1048 Sprinkler Suppression

To make sure a sprinkler installation will work it must be properly designed and installed. LPCB/BRE Certification Ltd undertakes third party verification of industrial and commercial sprinkler systems installers to a standard known as LPS 1048.

each and every customer are at the
forefront of everything we do
